

# Delta Capita | Our Data Consulting Practice

Why Now

80%

of the key risks to AI adoption are data related including poor data quality  
*Bank of England (2024)*

10 - 30%

estimated revenue spent handling data quality issues  
*GOV.UK (2021)*

<20%

organisations consider themselves data-ready for AI-driven transformation  
*World Economic Forum (2026)*

Client Challenges

## Data Strategy

"We have 14 data initiatives but no coherent roadmap (and no one owns it)."

- CDO-ready operating model design with RACI and governance charters
- Data maturity assessment benchmarked against industry peers
- Investment-grade roadmap with quick wins at 90-day gates

**Delivered a 12-week assessment for a Tier 1 global bank, identifying data & AI efficiency opportunities projected to save ~£1m across 60-FTE, and 7 PNLs.**

*DC Client Engagement: Global Investment Bank*

## Data Remediation

"Our regulators keep asking for data lineage but we're still stitching it together in excel."

- Automated DQ rules engine with real-time monitoring dashboards
- BCBS 239 / DORA-aligned governance framework implementation
- Data catalogue and lineage build using Collibra / Ataccama

**Migrated records from legacy mainframe to cloud for a Tier 1 bank - automated reconciliation processes, saving £100,000+ in manual FTE**

*DC Client Engagement: Global Retail Bank*

## Data Engineering

"Every change programme stalls because it takes 6 months to get the data ready."

- Cloud-native pipeline builds: Azure Data Factory, Databricks, Snowflake
- Legacy migration with zero-downtime cutover playbooks
- DC Accelerator: pre-built FS data models for trades, positions, clients

**Rapidly developed cloud data platform for UK Data Provider - 700+ data sets onboarded to generate new revenue streams via data monetisation**

*DC Client Engagement: FS Data Provider*

## Data Integration

"The FCA wants a full redress population by June and our data is in 11 different systems."

- Cross-system data discovery and golden record matching
- Remediation calculation engines with full audit trail
- Power BI dashboards for regulator-ready MI and progress tracking

**Designed LLMs to identify non-identical duplicate records and applied scoring methods correlated against risk-tolerance, saving £500k+ in IT costs**

*DC Client Engagement : Global Investment Bank*

What we do

Case Study

## Why Delta Capita

65+ Clients

1,100+ Global FS Professionals

Ranked Platinum by Consultancy UK for FS Consulting

✓ **Embedded Delivery** Our consultants sit inside client data teams - not alongside - reducing handoffs and accelerating delivery

✓ **FS-Data Accelerators** Pre-built data models, DQ rule libraries, and migration playbooks purpose-built for banking and cap markets

✓ **Regulatory Expertise** 200+ engagements across FCA, PRA-driven programmes - we know what good looks like

Let's assess your data estate with a 30-minute diagnostic, no commitment. | Get in touch: [deltacapita.com/get-in-touch](https://deltacapita.com/get-in-touch)
